

COMO

Description

For seated privacy on demand, detachable panel screens define space and create boundaries for a person or team.

Double vertical pole allows running of wires and data cables from the floor to the table top beside providing a sturdy and stable working platform.

For less cluttered working area, COMO allows access to the power socket outlet from beneath the table top through a hatch cover.

Die cast aluminium LCD arm enables position of the monitor between two facing desks, making it easy for team work collaboration

Turnable wire management tower cover enables easy installation of cables from ground to table top while keeping the wires hidden

COMO combines simple forms and clear structure with design details that meet diverse user needs. The table arm, for example, is designed to cater different length table tops since it can be easily adjusted to other positions.

The table legs are supported with nylon plastic glides that provides enough base support yet maintaining a simple contemporar
