

Voka – Black

Description

Voka task chair features a new and uniquely appealing double frame backrest design. The Voka is available with a black or white frame and is an excellent choice for task, managerial, and meeting room settings. Built with ergonomics and innovation in mind, the adaptive mesh backrest is made of a unique S-shaped curve structure that can be adjusted between the front and back for a perfect fit. The Voka multifunction synchro tilt mechanism includes an adaptable seat slider.

The seat cushion is super comfortable and environmentally friendly – made with toxic-free foam, and can be upholstered in fabric, leather, or vinyl of your choice. The Voka is BIFMA certified, ensuring it will not only be well-built, durable, and long-lasting but also promote a working environment that is functional and healthy!
