

BUDDY SOFA 219

Description

A three-seater sofa that, while maintaining the collection's friendly and reassuring design, adds further comfort to the seat, thanks to a combination of four different densities of polyurethane foam supported by elastic belts, offering greater softness for a domestic environment in which one feels truly pampered.

The sofa is incredibly versatile: not only is it available with or without armrests, but several seating modules can be positioned together. Version with removable covers available on request.
